Addressing drivers of ecological change in Lake Akrotiri:

Assessing and mitigating impacts of invasive non-native species

CEH, JSU and the AEEC

Akrotiri Environmental Education Centre, Akrotiri

27th - 29th November 2019

Programme

Day 1 Risk Assessments and Horizon scanning for INNS that impact human health and economy

1000 Welcome to AEEC – Thomas Hadjikyriakou (AEEC), Nigel Moggridge (SBAA) and Chris Taylor (JSU)

1015 Introduction to Darwin Plus Project – Jodey Peyton

1020 Prioritising INNS: from horizon scanning to Risk Assessments – Helen Roy

1030 How to become an "IAS of Union concern" – Wolfgang Rabitsch

1045 Invasive alien plants in Mediterranean islands and work by EPPO – Giuseppe Brundu

1105 Regional Risk Assessments for Cyprus: Lionfish – Periklis Kleitou

1125 Risk Assessments on UKOTs – Norbert Maczey

1145 Overview of new lists including additions and summaries: team leads – freshwater animals, terrestrial animals, marine and plants

1245 Lunch

1400 Break-out groups reviewing lists and scoring species

1500 Coffee

1530 Break-out groups reviewing lists and scoring species

1645 Summary of day and plan for Day 2

1700 Close

Dinner at 1930 at Karatello tavern restaurant by the Limassol Castle

Day 2 Horizon scanning for INNS that impact human health and economy and Pathway Action Plans

1000 Break-out groups reviewing lists and scoring species

1200 Overview of progress from group leads

1230 Lunch

1330 Prioritisation across taxonomic groups by consensus

1500 Coffee

1530 Focused review of current mitigation measures to reduce the risk of new invasive species arriving in SBAs/Cyprus – Jill Key

1700 Close

NATURAL ENVIRONMENT RESEARCH COUNCIL

1800-2000 (Optional) *Meeting the divers and Relionmed- Life researchers at Panikos Restaurant, Akrotiri to discuss lionfish control measures and have dinner (optional)*

Day 3 Assessments of INNS using ecosystem services approaches

1000 Welcome and overview of day inc. assessment methods – Kelly Martinou

1010 Costs of INNS - UK assessment and Global Burden of Crop pests – Dick Shaw

1030 State of play on ecosystem services assessment and mapping in Cyprus - Ioannis Vogiatzakis

1050 Integrated conservation planning in Cyprus - Stalo Leontiou

1100 Introduction to SEICAT – Sven Bacher

1120 Introduction to CICES and Nature's Contribution to People – Kelly Martinou & Helen Roy

1140 Groups split to undertake Assessments – species assessed using each approach

1300 Lunch

1400 Continue assessments

1500 Coffee

1630 Groups reconvene to discuss methods – Kelly to chair

1645 Summaries and next steps – Kelly and Sven

1700 Close

1830 *Dinner in Limassol at Dino's bistro (please let us know if you wish to join us)*
